FAIRFIELD \$100,000 FIRE IN PRINCETON

Eight Buildings Burned—Students Saved City from Destruction.

(Special from United Press.)
Princeton, N. J., Jan. 23.—Fire which broke out at 1:30 this morning in the Terminal Restaurant and which threatened to wipe out the business district of the town, was gotten under control after a hard fight. Students joined with the firemen in fighting the fire. A bursting gas pipe and broken electric wires endangered the lives of the fire-fighters. The restaurant was adjourned by several other large structures. All the buildings in the vicinity were of frame construction and a poor water supply added to the difficulties of the fire force. A tank containing 600,000 cubic feet of gas was saved solely by the work of a student brigade. The electric light company, fearing danger, turned off the current and the work of the fire-fighters was lighted only by the flames of the burning buildings. President Woodrow Wilson and Dean Henry B. Fine directed the impromptu force of student fire-fighters whose labors probably saved the entire city from destruction. Several students narrowly escaped death or serious injury in their brave attacks on the burning buildings. Eight buildings were destroyed, involving a loss of more than \$100,000.

VERY BOLD HOLD-UP

Guard of Auto Carrying Money Killed by Highwaymen.

(Special from United Press.)
London, Jan. 23.—In Tottenham at noon to-day, while thousands of people were on the streets, two highwaymen held up an automobile in which were carried the week's wages for the employees of the Shemans Rubber Factory. Two policemen were in the car, acting as chauffeur and guard. The latter was killed and the former dangerously wounded. In the excitement an unknown person seized the satchel containing the money and fled. The highwaymen also made their escape and a man-hunt is now in progress. The hold-up was one of the most daring ever attempted and the people were so taken by surprise that it was several minutes before the officials who were on the scene quickly collected their wits sufficiently to act.

RHEUMATISM CURED IN A DAY.

Dr. Detchen's Relief for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents and \$1. Sold by Curtis Pharmacy, 1149 Main St., Cor. Elm.

OUTBREAK IN SIBERIA

Exiles Kill Local Governor and Massacre Cossack Garrison.

(Special from United Press.)
St. Petersburg, Jan. 23.—Disquieting reports are reaching Russia to-day from the convict settlements in the Taurkhan district in Siberia where a serious state of rebellion has broken out. Hundreds of exiles are reported to have formed a mob, killed the local governor and overpowered and massacred the Cossack garrison. Owing to the intense cold however, few exiles have been able to escape. The district lies in northern Siberia in the Arctic Circle. Several who attempted to escape, perished in the cold. An alarm was sent out by neighboring stations where an uprising of exiles is feared. The garrisons in this district are rather weak and the government decided at once to rush reinforcements.

WOULD YOU KNOW ABOUT \$2,000,000 STEAMER COMMONWEALTH

In a little book just issued by the passenger department of the Fall River line, the splendor and magnificence of the new two million dollar steamer Commonwealth is pictured and described in a most attractive way. Critics of the art of good printing have described this publication as a really artistic achievement. The beauty of the interior of the steamer furnished plenty of inspiration to the artist and he has given most fitting expression to it. The cover is of a charming example of the impressionist school of art. It shows an impressionist steamer of gleaming white gliding over an impressionist sea of deep blue. The engravings are printed in a rich warm tint of olive. The margin of each page is embellished with reproductions in colors of the steamer's mural paintings and interior decorations. An excellent engraving of the Commonwealth proceeding at full speed occupies the center page. On the last cover page is reproduced in colors the Commonwealth's crest, which is the combined coat of arms of the states of New York, Connecticut, Rhode Island and Massachusetts worked into a shield. The book of the Commonwealth is indeed a work of art and is a fitting exponent of the beautiful craft of portraiture. A copy may be obtained by writing to E. S. Peters, City Passenger Agent, No. 171 Broadway, New York City, enclosing six cents in stamps.

CASTORIA.

The Kind You Have Always Bought
Beware of Signature of *Castoria*
HEAVY GAS EXPLOSION.

New York, Jan. 23.—Fifteen families fled panic-stricken early to-day from a West 66th street apartment house following a gas explosion which shook the neighborhood and broke the windows. Mrs. Marsella Graham, an actress in whose apartment the explosion occurred, discovered gas leaking and striking a match, her clothing was ignited and she was hurled across the room. People in adjoining apartments were blown out of their beds. Mrs. Graham was seriously burned. Accidents will happen, but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurts. 2 4 6

Factors of Safety

The human body is a wonderful machine, provided with muscular, nervous and mental energy far in excess of normal needs. In health, the organs and tissues can do double their usual amount of work without strain or friction, because they have stored energy to meet the extra demand. When you feel "all tuckered out," these factors of safety are nearly exhausted and you need to resort to

BEECHAM'S PILLS

to renew the supply of energy, wherever it may be called for. Indigestion, bilious attacks, constipation, loss of sleep, nervousness, dizzy spells, are warnings that the factor of safety in the stomach, liver, bowels or brain, is low, or nearing the danger point and needs to be replenished.

Beecham's Pills increase the supply of blood, strengthen the stomach, operate the bowels, feed the nerve cells, build tissue, and create a reserve supply of energy, which is the only natural and effective way to
